

## How to connect to UR\_RC\_InternalSecure from Windows XP

Click the Windows XP wireless manager icon in the system tray.

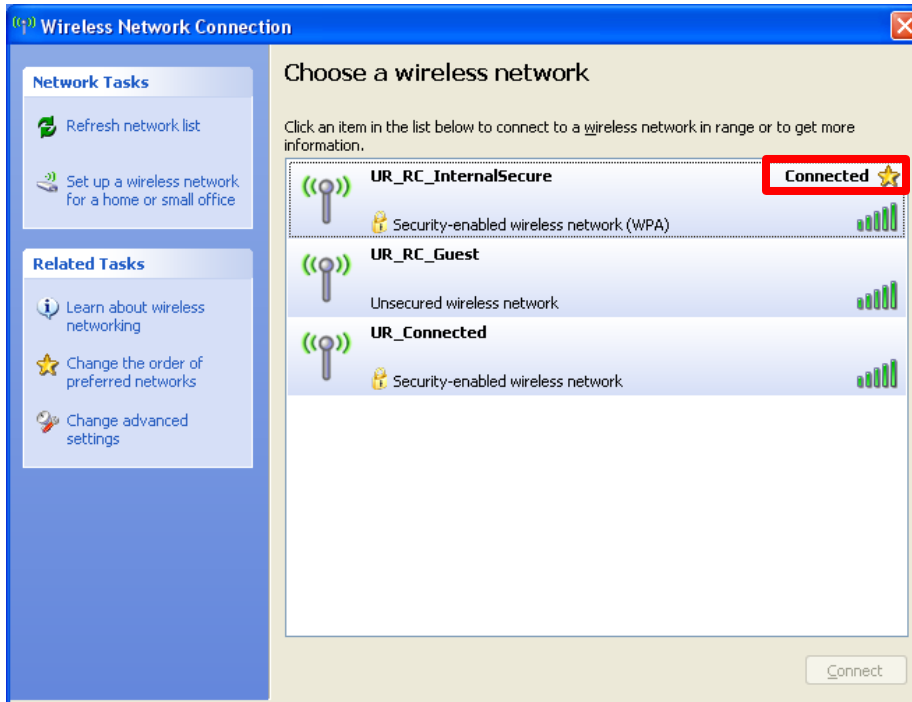

In the Wireless Network Connection window that appears, click on the **UR\_RC\_InternalSecure** network connection and then click **Connect**.

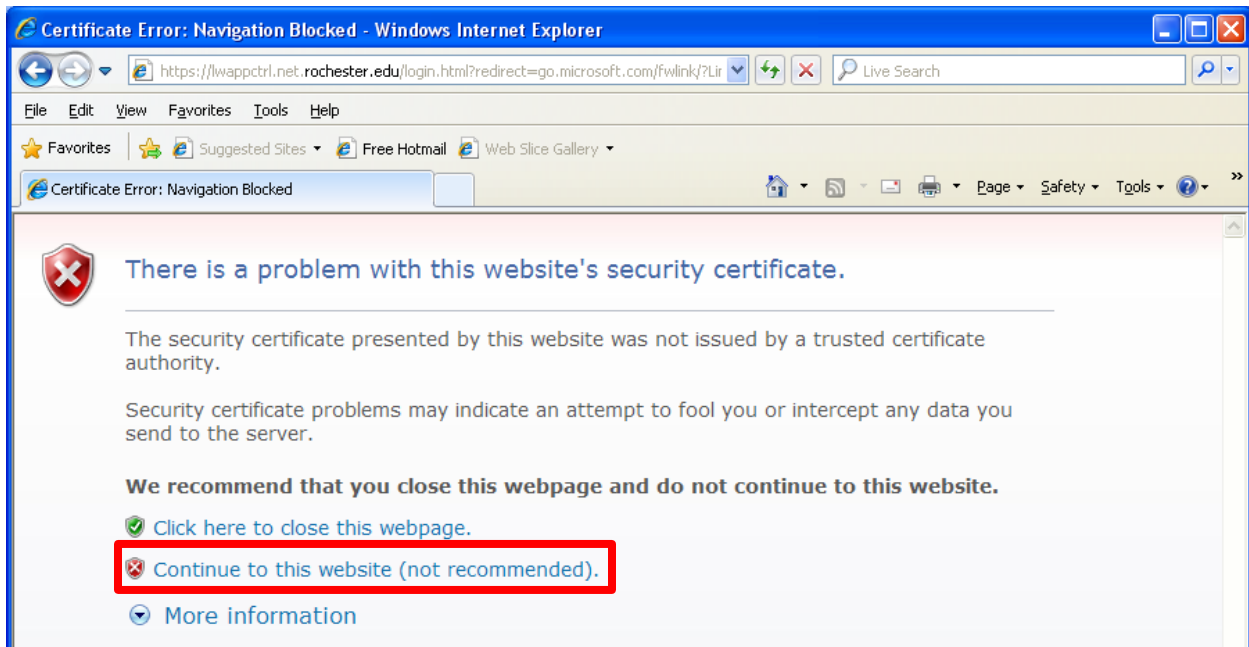

When prompted for the Network key, enter **URWireless** and click **Connect**.

The Wireless Network Connection will now show you are connected to UR\_RC\_Internal Secure.

Open a web browser. If using Internet Explorer, you will receive a website security certificate message. Click **Continue to this website (not recommended)**.

The web browser will redirect you to the URWireless Acceptable Use Policy. Enter your NetID and password on the left and then click Login.
